Matrix is a 100% Australian business based in Victoria, Australia. With 24 years invested in making innovative home and garden products, it's a brand you can trust.

Contemporary décor for eco-conscious living

A sustainable, fast-cycle product line of moulded screens, edging and flooring.

Consumers today are looking for outdoor products that are versatile, durable and easy to maintain. They're also more eco-conscious than ever, choosing sustainable products that don't cost the earth. Meet Jack Matrix.

This established Australian product line includes a wide range of décor screens, wall art, garden edging, and outdoor panel flooring in a select choice of colours. With 50+ organic and geometric moulded designs, it's perfect for homeowners, landscapers and outdoor enthusiasts.

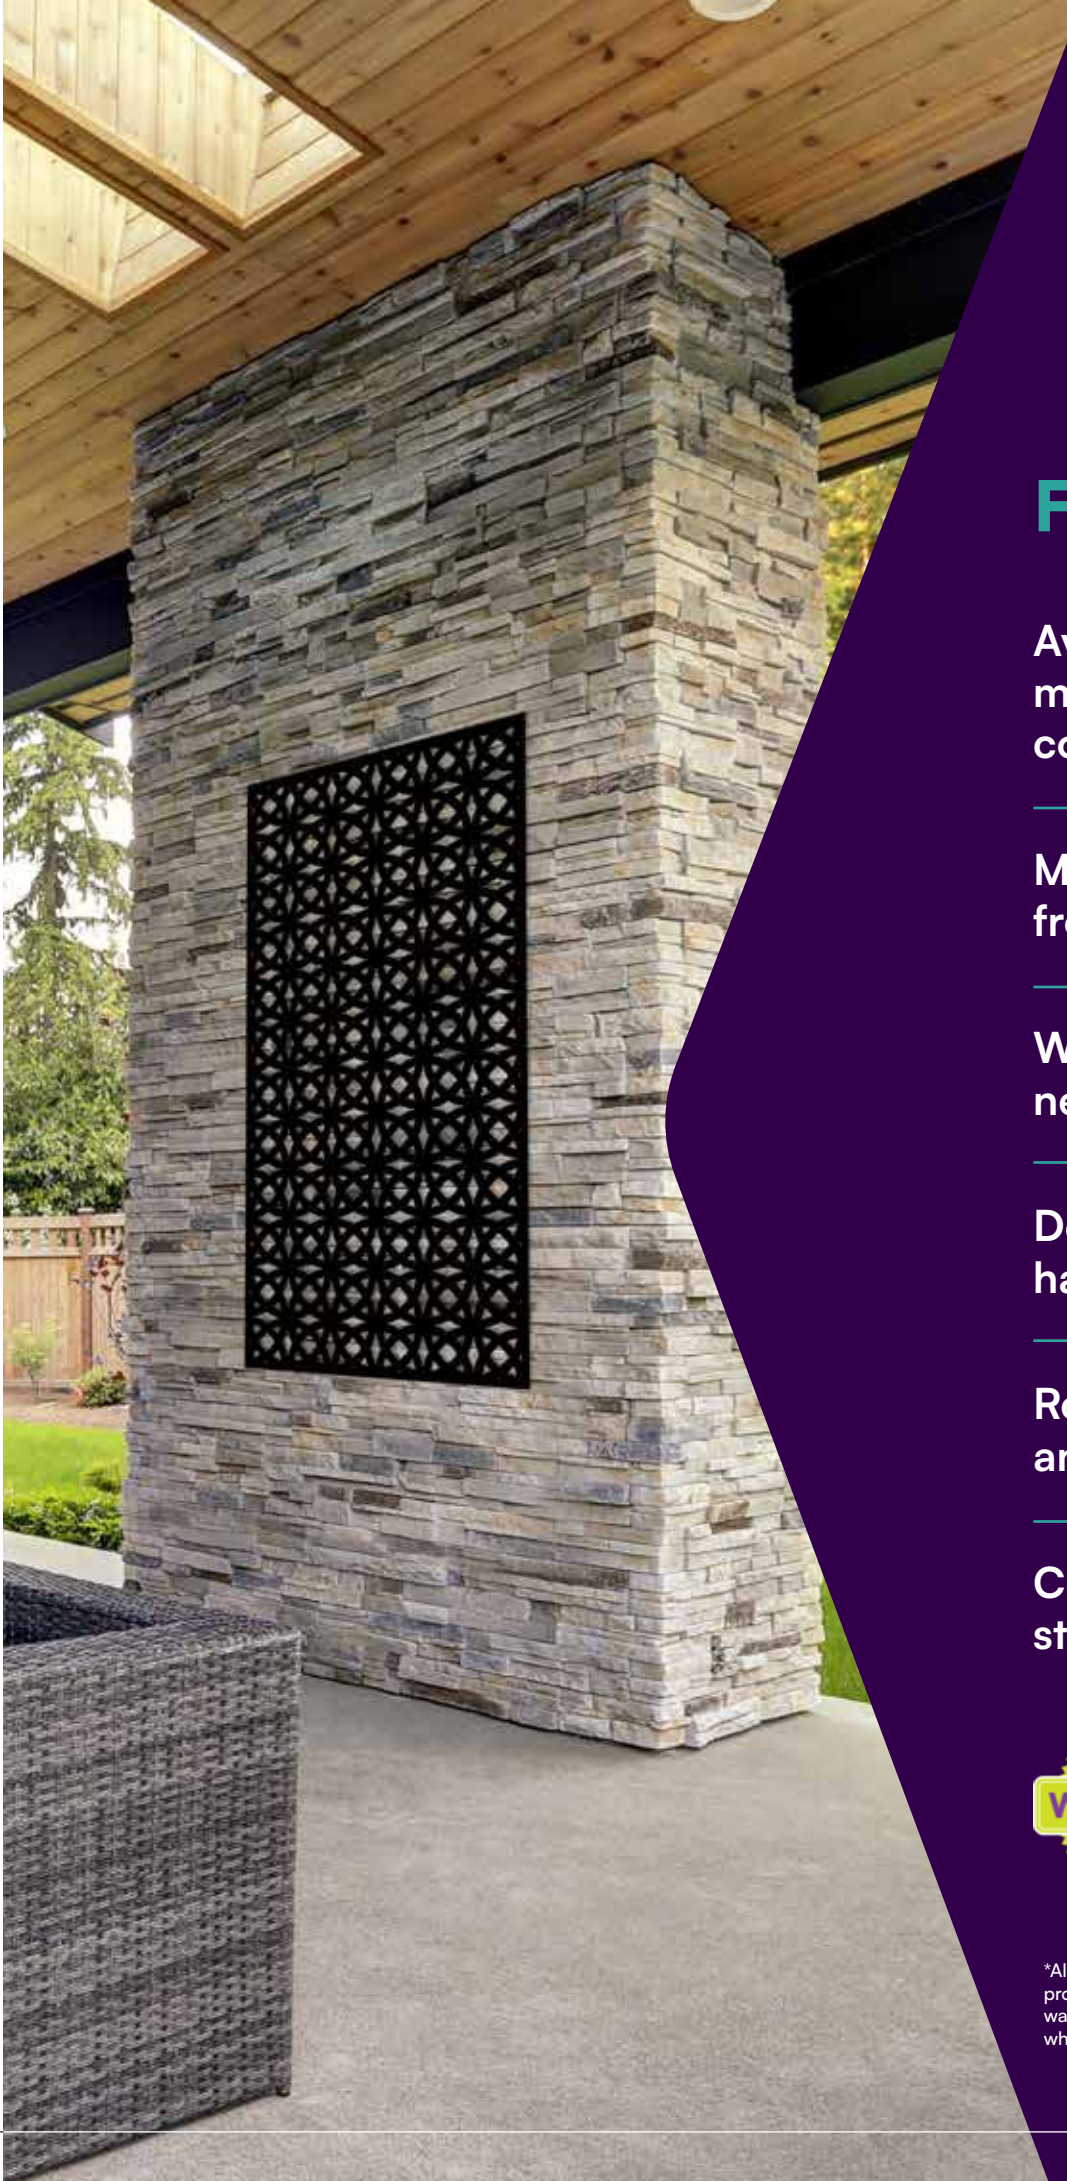

The Jack Matrix hero charcoal range is made with 100% recycled raw plastic materials from kerbside and industrial waste. This includes yoghurt pots and plastic bottles, discarded packaging, billboards and even coat hangers.

Our coloured Matrix Products are manufactured from a blend of virgin, and where possible, recycled natural polypropylene. In the manufacturing process, the raw material is blended with a colouring agent and UV-stabiliser to ensure the colour is maintained throughout its lifecycle.

As much as 120 tonnes of these raw materials are transformed into high-quality products every week, from waste to store in just 7 days. This fast cycle enables us to meet demand ensuring quick turn-around for order dispatch.

Not only are Jack Matrix products made from recycled materials, but any excess material generated during production is reground and fed back into our machines. This means our manufacturing process is zero waste.

Every item in the Matrix range is easy to install and maintain. They're fully weather-resistant, even against the hot sun and salty air, meaning they won't rot, rust, swell, fade, leach onto walls or paving or need touching up with paint. They also come with a 15-year warranty.

Features

Available in many attractive contemporary designs

Made in Australia from recycled plastic

Will not rot, rust or need painting

Do not contain harmful chemicals

Resistant to mould and insects

Covered by a 15 year* structural warranty

*All Décor, Wall Art, Edging, Flooring and **Lattice products are covered by the 15-year structural warranty. ** Except for the Reeded Lattice screens, which offer a 5-year structural warranty.
